

About CQC Solutions

Making the most of Portfolios and Projects.

Are you getting the most from your Project Portfolio Management (PPM) or Business Process Management (BPM) software? CQC Solutions are the leading PPM consultants who offer a compelling combination of technical excellence in understanding the potential of PPM Solutions, with the client-side experience and business insight to match your PPM solutions to your business aims.

CQC Solutions are leading providers of expert Project Portfolio Management (PPM) and Business Process (BPM) consultancy. Founded by the UK's leading professionals, CQC provide consultancy, training, support and customisation services to a range of high-profile clients. CQC are driven by results, and focus on increasing user-adoption of powerful project management software.

- **Assessment** – expert strategic assessment of your PPM solution and business requirements, with insight into current and future risks and opportunities
- **Configuration** – technically excellent consultancy and strategic insight to help ensure your PPM solution runs effectively and is configured optimally
- **Change Management** - experience practitioner supporting you in the adoption of industry best practices and help you manage the change process
- **Support** – a full range of tailored support options to help you maintain the effectiveness and value of your PPM solution, including user training
- **Hosting** – robust reliable outsourced hosting to minimise your need for in-house PPM/BPM resource and leverage CQC's experience, insight and expertise

Project Portfolio and Business Process Management (BPM) solutions are investments that many businesses under-utilise. Many face challenges with user adoption. As practice leaders in this area, CQC offer effective and proven consultancy, training, support, development and customisation that will help you successfully adopt PPM technologies. As well as new solutions, we can successfully rescue and turnaround underperforming installations.

Based in London, but with clients world-wide, CQC's steadily growing team of consultants are renowned for their straightforward, pragmatic approach. Our team, are all extensively trained and are dedicated to maintaining the quality and integrity of CQC services

We work for great clients, some of the biggest and most important international companies, such as Vodafone, Credit Suisse, Rio Tinto and Deutsche Bank. We are experts in leading Programme and Project Management tools such as, CA-Clarity (PPM & RAD), Salesforce (Customer Relationship Management & PPM) and MS Project and can provide a full range of Project Management Office services 'Out of the Box'.

“The successful implementation of the toolset was attributable to the excellent and continuous close support from experienced CQC Solutions personnel, working closely with the various internal analysts within the AIB Group.”

Kevin Hosey - Senior Manager, AIB Group
