Clarity Configuration Solutions

Optimise the configuration of your Clarity installation.

Are you getting the most from your installation of Clarity? CQC Solutions are the leading Clarity consultants who offer a compelling combination of technical excellence in understanding Clarity, with the client-side experience and business insight to match your Clarity installation to your business aims.

Optimised Configuration for your CLARITY SYSTEMS

CQC Solutions offers a full range of configuration and technical solutions to meet your business needs and ensure that you derive the maximum benefit from your Clarity installation.

CQC Solutions provide expert Project Portfolio Management (PPM) consultancy to a growing number of enterprise businesses across many vertical markets. Founded by five of the UK's leading PPM professionals, CQC are passionate about using best-in-class tools and common-sense best practices to help our clients derive maximum business and IT value from their PPM installation.

Based in Slough, with offices in London, CQC's team of 30 consultants are dedicated to maintaining the quality and integrity of our service. As part of our business strategy to manage growth, our consultants are all trained extensively and carefully mentored by our senior management, to ensure our clients receive the highest possible levels of service delivery from CQC.

"The successful implementation of the toolset was attributable to the excellent and continuous close support from experienced CQC Solutions personnel, working closely with the various internal analysts within the AIB Group."

Kevin Hosey - Senior Manager, AIB Group

CQC Clarity Implementation Solutions

- CQC's highly qualified and experienced consultants are able to **design, plan and implement** Clarity functionality and solutions that match your requirements and fit with your existing business processes

- To minimise the requirement on your own technical resources and leverage our expertise, CQC can take responsibility for your **entire Clarity deployment**, including:

  - Software installation
  - Requirements capture and definition
  - Model office
  - User Acceptance Testing (UAT)
  - User training
  - "Go live" management
  - In-life support with bespoke service level agreements.

Our only requirement is a client-side sponsor or project manager to assist when required, and appropriate available resources to ensure that meaningful UAT can take place.

CQC Clarity Technical Solutions

At CQC we have the expertise and experience to ensure that your technical architecture is appropriate for your Clarity installation, and to ensure that your Clarity installation is configured to work effectively with your other enterprise technology investments.

CQC's highly skilled Technical Consultants can:

- Implement Clarity effectively within your IT environment
- Design, plan and implement the integration of Clarity to other ERP systems
- Create complex reports and portlets from Clarity
- Create complex automation and calculations within Clarity.

CQC Clarity Support & Training Solutions

- CQC Solutions offer a flexible range of bespoke Support Solutions which we can design and tailor to best fit your business requirements
- We also offer bespoke Clarity Training Solutions that can enable you to perform normal ongoing in-life use within the client base.
